home address: 502, Silver Skyline, Four Bungalows, Andheri West

I am an architect with over a decade of experience in interior design. I bring a wealth of expertise and a proven track record of delivering exceptional projects to clients specialising in variety of sectors. I have had the privilege to work on a diverse range of projects, including cafes, restaurants, nightclubs, and hotels across India. Notably, I have recently expanded my portfolio to include government Museum projects to interpretation centres for brands, further enriching my understanding of experiential design trends and technology.

In the realm of hospitality design, I understand the intricate balance between brand identity, budget constraints, and creating spaces that resonate with diverse demographics. My approach to design is rooted in the psychology of space, ensuring that every environment I create is not only visually stunning but also functional and inviting for all age groups.

One of my strengths lies in my ability to collaborate effectively with cross-functional teams, from operations to execution. I bring a systematic and detail-oriented approach to every project, implementing foolproof processes and constantly refining them to ensure optimal outcomes. I take pride in inspiring my teams to push their limits and strive for excellence, fostering a culture of innovation and continuous improvement.
